creeks, and new discoveries are being made

which give promise of important results in

the future. We have every reason to believe that gold mining in Caribao is only yet in its

infancy, and from the fact that the mines on

Lightning creek are now rivalling in richness

those of Williams creek in its palmiest days,

we may safely conclude that the hidden

wealth of Cariboo has scarcely yet been

and attractive as those of Cariboo, are nevertheless yearly becoming more imperiant, because increasing in extent and productiveness. The accounts that have reached us from that section of the Province aranpon the whole of a most satisfactory Miners have had a very profitable work, and every confidence is felt in the durability of the mines. The reason why pany is now vestee in me the undersigned.

We do not bear more about those mines, is Victoria, Oct. 22, 1873. because of the difficulty of reaching them throng wir own territory. Communication is more readily had with them via the Columbia river and Fort Colville, and as the commerce carried on with the miners of this section of country is in the hands of Americans, we probably do not obtain as full and reliable reports of the annual yield of those mines as we otherwise should. From Deninece the mining news this year is not on the whole as favorable as we were ted to anticipate at the beginning of the season The existence of placer diggings in that region of country has however, been estab-lished beyond all doubt, and future prospecting may yet lead to the discovery of good paying diggings in that district. Several parties started out in the early part of the Monday Evenig, Oct. 27th. season to prospect certain rivers in the Omineca country that were believed to be auriferous, and as yet no authentic accounts have been received from them. We may yet, as we hope we shall, hear that the efforts of those hardy and adventurous men have met with a full measure of success. The discovery of new mines in the Stickeen country, rich and easily worked, constitutes the most important feature in the way of mining intelligence that we have had to record during the present season. The Cassiar mines, as they are called, are as yet confined, we believe, to a single creek, but several other creeks in the same region of country have been partially prospected, and in every in-stance good prospects have been obtained, and the fact thereby established that the Stickeen country affords a wide and very promising field for mining enterprise on the opening of the mining season next year. We now have this fact clearly demonstrated, that the whole extent of country from Kootenay in the south to Stickeen in the north is gold-bearing, and that the mines of British Columbia are practically inexhaustible. As yet nothing but placer mining has been attempted in the Province, but the day cannot be far distant when the era of quarts mining will dawn upon us, with all its energizing, stimulating, and speculative results. There can quarts in abundance exists throughout the whole length and breadth of the mainland,

The Grand Jury returned a true bill against two McLeans, brothers, and one Sabeston, for assaulting Edward Roberts. The Petit in a verdict of guilty and the two McLeans, in consequence of previous im-prisonment were fined \$50 each, Sabeston

was also fined \$50.
At Lytton a Court was held on the 11th.
The Grand Jury met, but the calendar was a

olank one. At Yale,a day or two afterwards, there were several cases tried. Indictments were drawn against Jimmy, Sen., and Jimmy, Jr., two Indians. for burglary; Jimmy and Charley, two Indians, for larceny, and Ah Mow, a Chinaman, for stabbing with intent. The Grand Jury returned true bills in all the cases, with the exception of Jimmy, Jr. The prisoners, with the exception of Ah Mow, Jimmy and Charley, pleaded guilty, and received their respective sentences. In the case of Ah Mow the Petry Jury returned a verdict of unlawfulls entring the horizont. verdict of unlawfully cutting; the prisoner on account of provocation was let off with nue months' imprisonment. Jimmy and Charley's case elicited much interest amongst the mercantile community of Yale, from the fact of the prisoners having been charged with taking a case of brandy during the night from one of the wagons of Uriah Nelson & Co. which had been loaded over night in order to allow of the teamsters getting an early start next day. It had always been the practice of forwarders to leave the loaded waggons in the street over night without watch, as any other course would have driven them to great inconvenience. The prisoners were found guilty; Jimmy, who was convicted of larceny on a previous occasion, was sentenced to two years with a whipping; the other was given a like term of imprisonment The Judge remarked he thought it a criminal neglect on the part of the forwarders to place such temptations in the way of the Indians, and that the forwarders did not deserve the protection of the law in such cases. After closing the Assizes at New West-minster, noticed yesterday, the Judge return-ad-to Langley for a few day's recreation and will be down to-morrow evening.

Leasing has its advantages in place,-After leaving Clinton, already reported in the Standard, the Assizes were held at Kamsupposed at first, and many while willing to pay the four cents per acre, will not submit to the additional two cents which they believe to be so unjust, if not illegal.

As these are matters which have given rise to a very strong feeling of indignation, I might have dwelt much longer on them, but fearing that I obtrude too much on your space I will conclude by asking, if it is politic, wise or just to institute those taxes at the present

The Government must be aware that The Government must be aware that a state of unprecedented depression exists; that the feeling of farmers is akin to despondency, that there is absolutely no money in the country, not even to pay the necessary expenses. Therefore reconsider the position; if impossible to ameliorate do not aggravate our condition, but patiently wait. The time may come when we will accept these taxes unmurmuringly, but most assuredly that time is not the present.

The ground resembles Leech river, but is deeper, more bars also exist than in the river which was the ascitement of 1864. It was the intention of the prespectors to have returned to the diggings at once, but there being no mode of transit, more favorable than by a small boat, in which the

party came down, they have postponed their departure until spring. The lead evidently is back in the mountains, and there is little doubt gold will be discovered in abundance. LAST NIGHT'S BALL .- The first sunual bal given by members of the Victoria Base Ball Club, passed off very pleasantly at the Alhambra Hall, last night.
